

Fraud Investigation Report

Alert ID: 47

Risk Level: MEDIUM

Summary

Alert 46 pertains to a flagged transaction (ID 47) of \$4,000,000,000 from account "b9c59b15-d76c-458f-9c8a-dd4b7c21060a" to "1f9f33c0-7dc2-46fd-b4d4-c19eb9441d9f". Historical data shows 11 transactions from the same sender, 6 of which are flagged for the same large amount within a 10-minute window on 2026-06-21. Earlier smaller transactions were completed, but the pattern of repeated, identical high-value transfers raises strong suspicion of money laundering or fraudulent activity. The account's overall risk score is 55, indicating a moderate baseline risk, yet the current activity elevates the threat level to high.

Recommendation

1. Immediately freeze the sender account and the target account to prevent further transfers.
2. Conduct a thorough investigation of the sender's identity and source of funds.
3. Notify the compliance team and file a suspicious activity report (SAR) with regulatory authorities.
4. Review all pending and future transactions for both accounts, applying stricter monitoring rules.
5. Consider marking the receiver account as a high-risk beneficiary pending further review.
